

VEGETATION MANAGEMENT PROCESS

This infographic represents a general overview of Marin County Parks (MCP) vegetation management process. Sequence, timing, and duration of phases may differ from project to project.

VBMP: The Annual Vegetation Management Workplan outlines upcoming projects in 34 open space preserves to protect Marin's special places, rare species, and the Marin community from wildfire. The workplan is developed using the best management practices outlined in the Vegetation and Biodiversity Management Plan, a science-based, adaptive planning tool used to prioritize the most critical projects within the preserves. The complete plan is available on marincountyparks.org.

CEQA: The California Environmental Quality Act (CEQA) is a California environmental protection statute passed in 1970. For more information visit <http://resources.ca.gov/ceqa/>. There are different levels of CEQA required depending on the project.

PARTICIPATE

Stay Informed

- Sign-up for Marin County Parks quarterly eNewsletter at marincountyparks.org.
- Join Marin County Parks on Facebook and Twitter.
- Sign-up for topic-oriented email alerts on marincountyparks.org.

Volunteer

Help beautify our trails and open spaces. Be a part of Community Volunteer Days, Environmental Stewardship, Trail Watch/Mounted Patrol or a Trail Maintenance Team. Learn more at marincountyparks.org or call (415) 473-3778.

Attend a Community Workshop

Announcements for neighborhood workshops are distributed via community groups, on NextDoor.com, and on our website marincountyparks.org.

Attend a Public Hearing

All Board or Directors and Parks and Open Space Commission meetings are open to the public and provide a forum for public comment. Visit the marincountyparks.org events calendar for commission meetings, marincounty.org for board meetings, or call (415) 473-6387.

Contact Marin County Parks

Marin County Parks welcomes public feedback, even outside of formal comment periods.
