

Marin County IPM Program Application for Limited Use Exemption

Person Requesting: Jim Chayka Date: May 9, 2018

Department: Marin Parks Phone: 415-473-3639

Proposed Material: Finalsan-O EPA Reg. Number: 67702-34-70051

Active Ingredient: Ammoniated Soap of Fatty Acids

Amount of material needed: TBD

Location of Use: Park sites as needed

Reason why Restricted: Identical product (Finalsan distributed by Engage) manufactured by same parent company (Neudorf) is already on our list; however a different distributor (Certis) chose to acquire organic labeling. Because each distribution company has a different EPA number and product title, this is technically a new product with its own EPA number.

Reason for Need: We would like to use the brand that has been certified organic through OMRI due to a public and departmental preference for organic products.

Options/Alternatives: In order for this product to be OMRI certified, OMRI requires the use of preventative, mechanical, physical, and other pest, weed, and disease management practices.

Plan to Preclude Future Use: Monitor for early detection, use mechanical removal at the first sign of regrowth. Mulch immediately after spraying.

Time Period Needed: 9 months, 5/9/18 through 2/8/19

Request Approved,

Request Not Approved
