A184877	Monitor Wasp Bait Traps	1.00

Service Comments

Tech Comment: Overall moderate to heavy activity. Noted approximately 40 wasps within monitors and some field roaches as well. I found a live nest next to station by weather monitor. I disabled it. Several stations had heavy ant activity as well. Treated accordingly.

A185347	Service Trap/s Exterior Bait Boxes	1.00

Service Comments

Tech Comment: Inspected and serviced perimeter snap trap stations throughout home. Overall heavy activity back side of building. Caught 3 rats today, one by right side of building towards front, another rat in back left station, and one juvenile rat back right side of structure as well. I reset and replenished traps with peanut butter.

General Comments

Inspected yellow jacket nest, it looks like a raccoon pulled nest out of the ground, no chemical can be used, I do recommend covering the hole with sand for now after dark, if they have another way out they will used it, away from the daycare entry, I just change location of trap to tree away from the nest, no other activity noted. Thank you
