GENERAL COMMENTS / INSTRUCTIONS

WHERE NEEDED ADDED FRESH BAIT
 Serviced all trap stations around the exterior perimeter of both buildings. There was 1 capture at the time of service, a rat in a station at the south front end of building 20. I removed the capture and added fresh bait to each trap as well as new mice traps where necessarily. I recommend that all the trash around the building be picked up and that the bushes be trimmed.

Service Traps Within Stations in Landscape
 Serviced all trap stations around the exterior perimeter of the civic center. There were 2 captures at the time of service. 1 rat by the 3rd arch, northmost arch and a mouse by the trail that leads to the waterfall. I removed the capture and added fresh bait to each trap. Recommendations remain the same as conditions remain the same.

GENERAL COMMENTS / INSTRUCTIONS

Service Traps Within Stations in Landscape
 Serviced all trap stations around the exterior perimeter of the civic center. There were 2 captures at the time of service. A rat and a mouse both in stations on the waterfall hill. I recommend putting screen over any open pipes around the building as well as trim the tree thats hanging off the side of the wall at the waterfall hill, it gives rodents access to the cafeteria patio.

GENERAL COMMENTS / INSTRUCTIONS

Serviced all trap stations around the exterior perimeter of the parking lots. There was 1 capture at the time of service which was a juvenile rat in the top parking lot area, the station by the big bush that stretches down to the bottom lot. I removed the capture and added fresh bait to each trap. I recommend the ivy, overgrown weeds and bushes be trimmed down/cut back. I also recommend that all the trash that exists in the bottom parking lot ivy/weed area be picked up, it's been there for several weeks.

GENERAL COMMENTS / INSTRUCTIONS

Serviced all trap stations around the exterior perimeter the parking lots. There was 1 capture at the time of service which was in a station in the lower parking lot. This station is the closest one to the left of the portable bathrooms. The captures was a juvenile rat, I removed it and added fresh bait each trap throughout the lots. The amount of garbage keeps amounting in the lower parking lot behind the perimeter retaining walls. My biggest recommendation is to pick up the trash and then to trim the ivy down.

GENERAL COMMENTS / INSTRUCTIONS

SERVICIE ALL BAIT STATIONS WITH TRAPS. RESET, REPLACE AND OR REBAIT.

There were 2 captures at the time of service, both being mice in the stations around the home. The 1st was in the sub-area and the 2nd was in the station under the water meter. The work that had been done to keep rodents out of under the home has been compromised. There's also a high amount of ant activity around the home and barn, I recommend we treat both for ants and spiders.

CONDITIONS / OBSERVATIONS	Reported	Severity	Responsibility	Reviewed
Open Device 09 barn yard (T-REX)	10/23/2014	High	PM Company	10/23/2014

Condition: Observed what looked like drywood termites on bench in barn yard.
Action: Need inspection by termite technician.
