Serviced traps inside cafeteria and on patio. No captures exterior. 1 rat captured interior, in the side room down the hallway where drink storage used to be. Picked up 5 droppings I found under the plastic shelving. 2 traps were also tripped here. The rodent was actually captured in a snap trap beyond the double swing doors under the stainless tables. Removed and reset traps. No droppings found elsewhere.

Service Traps Within Stations in Landscape  
 Serviced all trap stations around the exterior perimeter of the civic center. There were no captures at the time of service but I added fresh bait to each trap as well as detex blox where necessary. I noticed that some of the landscape has been trimmed and that there are now covers over most of the trash cans which is great. The trash can by the south arch on the marinwood side still needs a cover/lid though.

Service Traps Within Stations in Landscape  
 Serviced all trap stations around the exterior perimeter of the civic center. There was 1 capture at the time of service which was a rat. I removed the capture and added fresh bait to each trap as well as detex blox where necessary. The tree hanging off of the cafe patio area is an easy way for rodents to access the patio as I've mentioned several time before, I recommend just trimming it a bit. Im seeing field roaches in the landscape, I know we are going to be treating the landscape soon which will most definetly help.

**GENERAL COMMENTS / INSTRUCTIONS**

Serviced all trap stations around the exterior perimeter of the parking lots. There were 8 captures in total today. 2 rats and 6 mice. A majority of the captures were around the BlackBerry bushes located in between the upper and lower lots. I recommend removing these rodent attracting bushes as well as cleaning up all the garbage behind the retaining walls in the lower parking lot.

**GENERAL COMMENTS / INSTRUCTIONS**

Serviced all trap stations around the exterior perimeter of the lots. There were 2 captures at the time of service. There is still a lot of trash scattered behind the restroom area in the lower lot, it seems to be adding up. The 2 trash cans in the lower lot are attracting yellow jackets, again lid suggested. Since the last service, I've also been noticing several different types of roaches roaming the fields and stations since the last service.

31801261	NET 10	Service Parking Lot Traps	1.00

**GENERAL COMMENTS / INSTRUCTIONS**

Serviced all trap stations around the exterior perimeter of the parking lots. There were 10 captures in total at the time of service. All 10 captures were mice and a majority of them were found in the lower parking lot stations. Each of the stations had yellow jackets surrounding them or inside them, the yellow jackets appeared to be eating the meat off the captured rodents. I had to put on my bee suit due to the amount of yellow jackets flying around the lower parking lot stations. I believe that the yellow jacket activity is due to the trash that's been lingering and stacking up in the parking lot for months. I believe that the rodent activity is due to the same as well as the blackberries growing back on the bushes. I recommend the bushes and vines be removed from the landscape as well as having the trash cleaned up and being up kept.

**GENERAL COMMENTS / INSTRUCTIONS**

WHERE NEEDED ADDED FRESH BAIT  
 Captured six mice interior, and 3 on the front exterior. Serviced fly machines throughout, small fly was still fairly heavy at the Bar and Kitchen areas, along with some large fly activity in the kitchen as well. Did inspection on exterior of building to follow up from the last comments in the previous service, Drew diagram marking openings that need to be sealed or doors that need some rodent proofing. Seal up is not 100% guaranteed because there are so many doors and so many are left open all the time.

**GENERAL COMMENTS / INSTRUCTIONS**

WHERE NEEDED ADDED FRESH BAIT  
 Captured six mice interior, and 3 on the front exterior. Serviced fly machines throughout, small fly was still fairly heavy at the Bar and Kitchen areas, along with some large fly activity in the kitchen as well. Did inspection on exterior of building to follow up from the last comments in the previous service, Drew diagram marking openings that need to be sealed or doors that need some rodent proofing. Seal up is not 100% guaranteed because there are so many doors and so many are left open all the time.

**GENERAL COMMENTS / INSTRUCTIONS**

SERVICIE ALL BAIT STATIONS WITH TRAPS. RESET, REPLACE AND OR REBAIT.

Serviced all accessible trap stations. There were 3 captures at the time of service, all mice. The first, was in the station under the tree in front of the house. The second, in a station behind the house. The third was in the station up against the barn, in the yard. I removed all captures and added fresh bait to each trap as well as detex blox where necessary. There are still big ant trails eating up the bait in each station around the home and barn.

SERVICIE ALL BAIT STATIONS WITH TRAPS. RESET, REPLACE AND OR REBAIT.

Serviced all accessible trap stations around the exterior perimeter of the home, barn and pool. There was 1 capture at the time of service, a mouse under the home. I removed the capture and added fresh bait to each trap. Id like to reiterate that there are a ton of ants around the home and barn, eating the peanut butter. I recommend we do a treatment for ants around both.
