GENERAL COMMENTS / INSTRUCTIONS

WHERE NEEDED ADDED FRESH BAIT
Checked all boxes- no captures no activity. I Rebaited all traps with fresh peanut butter. During service today I noticed a screen vent should be addressed behind garbage area. It's the one with heating duct in it. There is a gap between screen and heating duct big enough that rodents could get thru. I suggest adding more screen and/or foam to prevent rodents from entering. Gopher activity still active. No invoice left.
