GENERAL COMMENTS / INSTRUCTIONS

WHERE NEEDED ADDED FRESH BAIT
 Serviced interior and exterior devices. One Mouse captured in the front exterior. No other captures inside, or signs of activity in the way of chewing gnawing or droppings. Fly activity a little higher with the hotter weather, also some areas up in the bar needs some cleaning where there is sticky residue around the compressor and the soda machine area. These areas must be cleaned diligently otherwise the Fly activity will just get heavier. I used some bio foam around this area today. Changed flyboards in fly lamps and glue boards in devices as needed
